- Replace Video (1:38)
- Narrate (2:44)
- Insert Pause (1:18)

Scripted Recordings

- Import Function on Scripted Recordings (1:59)
- Editing a Scripted Recording (1:09)
- Recording a Scripted Recording (2:05)
- Intro to Scripted Recordings (3:00)

All About Overlays

- Overlay Video (2:35)
- Overlay Shape (3:09)
- Blur Moving Objects (2:29)
- Animating Overlays (2:00)
- Overlay Layering (0:41)
- Overlay Outline (2:25)
- Overlay Image (2:21)

iOS/Android Apps

- Android Screen Recorder App (0:46)
- iPhone and iPad Screen Recorder App (0:40)
- Getting Started: Android (0:50)
- Getting Started: iPhone and iPad (0:37)
- Connecting to the Desktop Editor (0:14)
- Upload to Screencast-O-Matic from Mobile Apps (0:22)

New! Video Hosting

- Manage Video Content in Hosting (2:58)
- Setting Visibility for Videos and Channels (1:47)
- Create Custom Links (0:44)
- Embed Video Code (1:23)
- Custom Thumbnails (1:03)
- Replace Video (0:47)

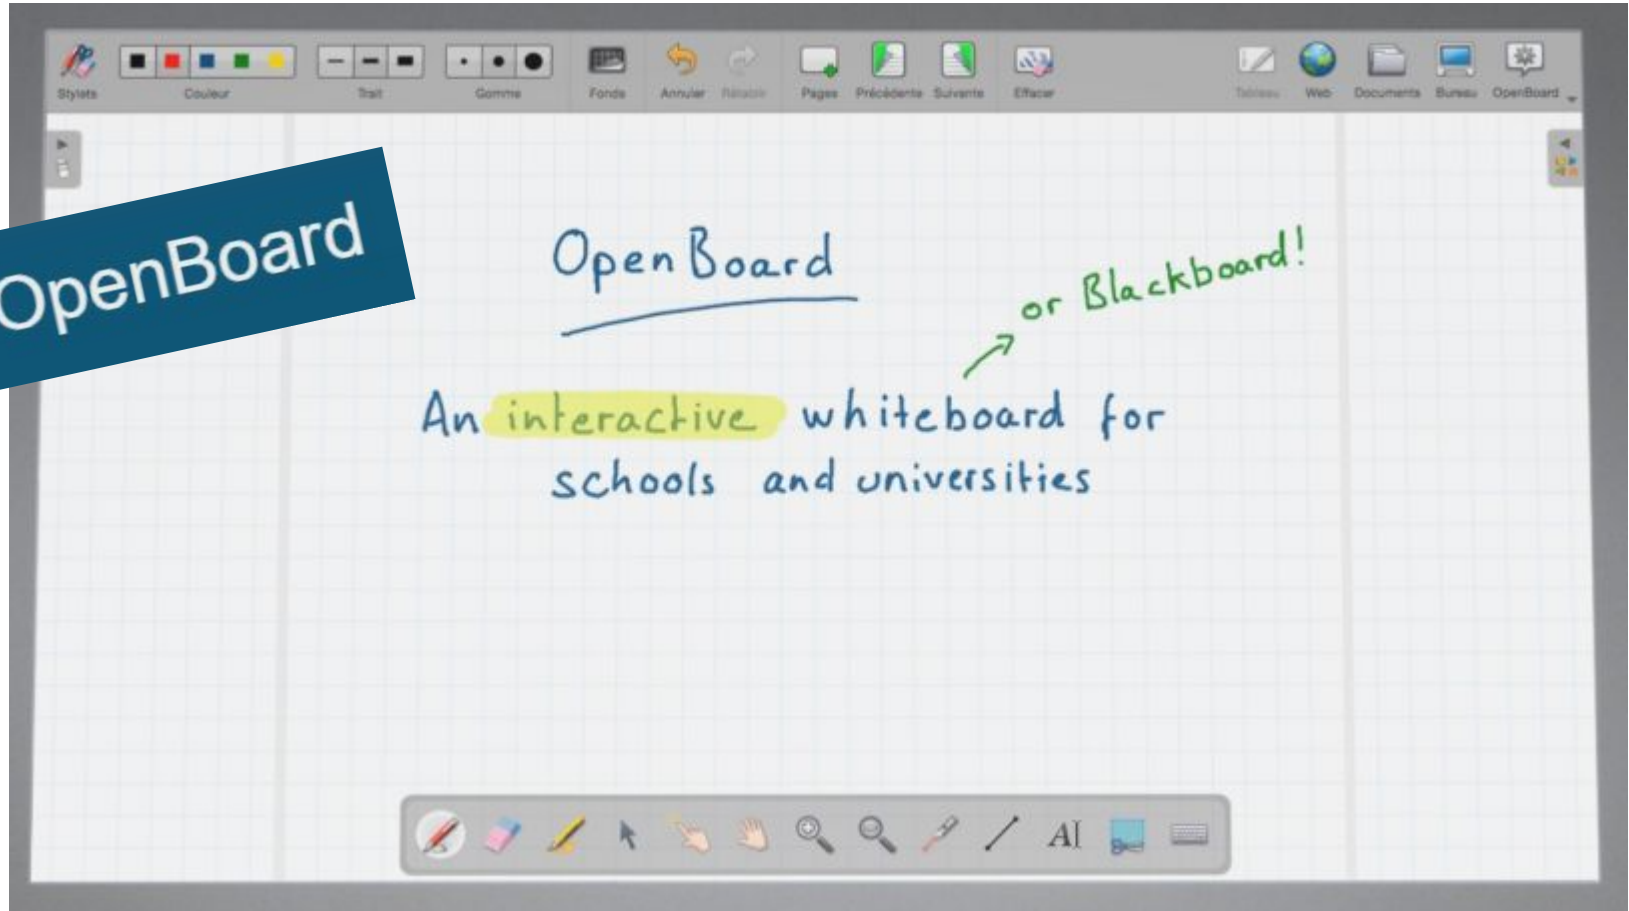

With the Free version...

- Webcam choice is permanent (does take up a lot of space if you plan on changing the size of your recording video)
- Suggestion: have all of your screens ready to go...
 - Google classroom
 - Document Camera
 - Smart notebook file
 - OpenBoard
- “Trim” is limited to changing the beginning and end points
 - You can drag it to a new point and click play to see if you like it and change it back if you don't
 - Pausing your video and restarting with a different screen / when you are ready is the built in editing feature
 - Best part: You never need to feel rushed! :)

Getting Started Suggestions:

- Before you make a video you care about... make one you DON'T care about :)
 - Make short 20-30 second videos and experiment.
 - You can't break the program- click on everything!
 - Practice saving -> file paths, to YouTube, Google Drive etc

Great Smart Notebook alternative:

Great tablet if you don't have a Mobi:
