- The Bridge: If you don't have transportation The Bridge is currently offering clients a free Uber both ways for their safety. Currently they have a no client contact policy. The Bridge will email out a list of available food. The family can email it back completed. If you don't have access to email The Bridge will go through the list on the phone and do their best to fill a request. When a family gets to The Bridge they should call and tell them they are in the parking lot. A volunteer then brings out the groceries and sets them on the table.
