

Attendance Update

September 2017

When you're not here... We miss you...

Attendance Team

The EHHS attendance team and efforts of all faculty and staff continue to have a positive impact on daily attendance. During SY 16/17, EHHS had an 11.8% Chronic Absenteeism rate. This was down over 1% (25 students) from the prior year and over 4% improvement from 15/16 and a nearly 10% improvement from three years ago! This year's attendance plan ([SY 17/18 Attendance](#)) provides a clear overview of attendance goals and processes that all team members will utilize as we continue to improve attendance efforts. Staff can also utilize the [EHPS Attendance Toolkit](#) and a summary from the [EHPS Attendance Task Force](#) as an additional resource.

Community Efforts

East Hartford High School is proud to welcome [Intercommunity Mental Health Group \(ICMHG\)](#) as our new provider for School-Based Health services. The organization's offices will be in the same location as the prior SBHC and more information will be forthcoming regarding Intercommunity's scope of work in the coming weeks. Additionally, they will be a valuable resource for our attendance efforts at EHHS and will be available for supporting our students and families as they become part of our attendance team meetings and systemic process for interventions. Please stop by to introduce yourself and welcome them to the hornet family.

Tracking our Progress (16/17)

Please be sure to save and submit attendance every period to help with keeping our accurate attendance as a Hornet Community!

Celebrating ALL IN, Everyday

Each month, the attendance team will designate one student (per grade level) for Most Improved Attendance and Perfect Attendance. Please congratulate these students as you see them recognized for their commitment to being in school, everyday!

16/17
