

Connections Activity

Title/Skill:	Water Tarp
Connection Goal:	personalization
Grade Level:	9-12
Month:	
Time Needed:	25 minutes

Handouts/Materials Provided:

One small tarp, one plastic cup, small amount of water

Summary of Activity for the Advisor:

1. A cup of water (half to $\frac{3}{4}$ full) is placed in the middle of a small tarp. The group is to move the cup of water, on top of the tarp, to a new location, w/o spilling the water.

*Once the cup is placed on the tarp, no one may touch it directly or through the tarp.

*Each person must be at the end/sides of the tarp.

*No one may be closer to the cup than the ends of the tarp.

2. You may use masking tape to mark original location and desired target of cup.

Read/Review/Discuss/Do with students:

- Attempt different target locations
- Try using a full cup of water, if students master it quickly.
- Challenge students by timing and recording their times.
