None required

---

**Summary of Activity for the Advisor:**

1. *For the following 10 questions, calculate the group average (Take the sum of everyone's response to the question and divide it by the number of people in the group to for your group average)*

- What is the number of hours per week you spend watching television?
- What is the average number of minutes you spend in the shower?
- What is the number of different states you have resided in?
- What is the average number of hours you spend sleeping on a normal weeknight?
- What is the number of minutes it takes you to get to school each day?
- What is the number of sodas you drink each week?
- What is the number of books you read per year?
- What is the number of times of you have traveled outside of the country?
- What is the number of video games you own?
- What is the number of siblings you have?

---

**Read/Review/Discuss/Do with students:**

- Calculate classroom averages and discuss answers with group... "What does this average say about our class, town, demographic, etc?"
- Ask students to write their own questions for this activity.
